Ella's TRIVIA NIGHT

KEEPING KIDS' HEARTS BEATING
IN MEMORY OF **THIS** HEART KID

To Whom It May Concern:

In 2017, Ella Mertens tragically passed away at 13 months from an undiagnosed genetic heart defect. Congenital heart disease (CHD) accounts for approximately 40% of deaths in children with birth defects in the US. Ella's Umbrella is a nonprofit established in Ella's memory to keep what happened to her from happening to other kids. Our goal is to support pediatric heart research and technology advancements to save the lives of kids with CHD.

On Saturday, **April 4, 2026**, to celebrate Ella's 10th birthday, we invite you to our annual trivia night IBEW-Local 1 in St. Louis. We have found that bringing people together to have fun for a great cause is a winning proposition for everyone involved, including sponsors. Here is a testimonial from a previous attendee of Ella's Trivia Night:

"We were excited to win a 3-month wine club membership for Cooper's Hawk in the silent auction at Ella's Trivia Night. We enjoyed it so much we then became monthly wine-club members and have maintained our membership since then. We visit often for dinner with friends and family, and we have Ella's Trivia Night to credit for finding one of our favorite spots!"

We hope you will consider partnering with us to help make this event a success! Together, we can make a difference in the lives of heart children and their families.

Sincerely,

Betty Mertens
